

## Second Chances Wildlife Center Animal Interaction Release

Welcome to the Second Chances Wildlife Center's Animal Interaction Session. Minors, under 18 years of age, may not interact with our animals unless a parent or guardian is present. However, minor participants must have this Parent/Minor Child Agreement signed.

Certain areas of Second Chances Wildlife Center and outdoor property are off-limits or 'restricted' to anyone who does not have pre-rabies or post-rabies inoculations. All restricted areas are **absolutely off limits to all** minors. There may be instances when a rabies vector species (fox, coyote, bat, raccoon, skunk) may be in an area not normally restricted, but the area will become restricted if these species are present.

I understand the above information and how it applies to me or my child.

I agree to the following:

1. I understand that Second Chances Wildlife Center does not provide any no-fault insurance coverage for any participants and does not cover anyone, especially minors, in case of any injury or condition animal related or not.
2. I will refrain from making a claim of any kind against Second Chances Wildlife Center, its agents, its staff, or its volunteers for any harm of any kind, done to me or my child while engaged in any activities at Second Chances Wildlife Center.
3. I understand that there are potential dangers involved in interacting with any wild animal, even those in captivity under Second Chances Wildlife Center's care. I understand that animals can carry disease and parasites that can be transferred to humans. I understand that all animals have teeth and can bite, have nails and can scratch. I agree to be responsible for any such dangers should they occur. Furthermore, I will indemnify, defend and hold the Second Chances Wildlife Center and its Director, Brigette Williams and her team, harmless from and against any claims, lawsuits, injuries, damages, losses, costs, and/or expenses sustained in connection with my visit to Second Chances Wildlife Center.
